

REQUEST FOR MEDICAL RECORDS

If you need a copy of your medical records, please call **970-507-3828**.

We will verify your identity by asking two questions and get your verbal consent to release them. Once the information is gathered, we will mail them to you so that you do not have to come and pick them up. During this scary time regarding COVID-19, we would like to be able to supply you with your records without you coming into the building.

This gives us the ability to protect your health.
